ABOUT MYSELF

I am Preetam Kumar Ghosh.

I am currently pursuing a Bachelor of Science in Electrical and Electronic Engineering (EEE) at Khulna University of Engineering & Technology (KUET), Khulna, Bangladesh. Alongside my academic studies, I am actively working on developing additional skills relevant to today's evolving job market. Also in my free time I love to read books, sing songs, play guitar, listen to music, watch online shows (movies, anime, series etc.)

I have interest in Machine Learning and artificial intelligence. So I am learning from some videos and classes available free on machine learning and I am also exploring probability, statistics, and core ML concepts like gradient descent. I have learnt basics of C and C++. Now I am working on how to use array, pointer and reference in solving problems using C++ and how to apply these to make some basic arduino projects. I have also seen some videos on data structures (query, stack, binary tree, BST etc.).

● HOBBIES AND INTERESTS

Singing

I love music—singing and playing guitar. Not a pro guitarist but trying to enhance my skill.

Reading Books

I enjoy reading novels and short stories, especially Bengali literature.

I admire works by Rabindranath Tagore, Sarat Chandra, Bibhutibhushan, Shirshendu Mukhopaddhay, Humayun Ahmed etc.

Others

I enjoy watching anime, movies—especially horror—and various series. Lately, I've been mostly watching anime, and I also read manga and manhwa. I am currently more into gaining practical skills needed for real-life applications related to my field of study.

Driven by curiosity and a passion for learning, I am committed to continuously improving my skills and contributing to impactful projects and I aim to build a career where I can apply my technical skills, expand my knowledge, and stay aligned with the future of technology.
